About The Atelier Collection

Richard MacDonald has selected his most inspired sculptures and created them by hand in limited editions of 950. Each piece is cast in bronze with a beautiful patina, then mounted to a granite base. The sculptures in the Atelier series are created with the same devotion seen in the artist's masterworks. The Atelier works of art bring the beauty and passion of Richard Macdonald's artistic vision to new and seasoned collectors alike. To view the complete Atelier collection, please contact an Art Consultant.
