

1) Lang menù for homepage is wrong

Only on the homepage, lang menù it's in this format, the lang aren't on the format ITA ENG DE on the same line

For the internal page the format is correct - ITA ENG DE

Could you fix the lang menù in homepage?

2) Translation of pages

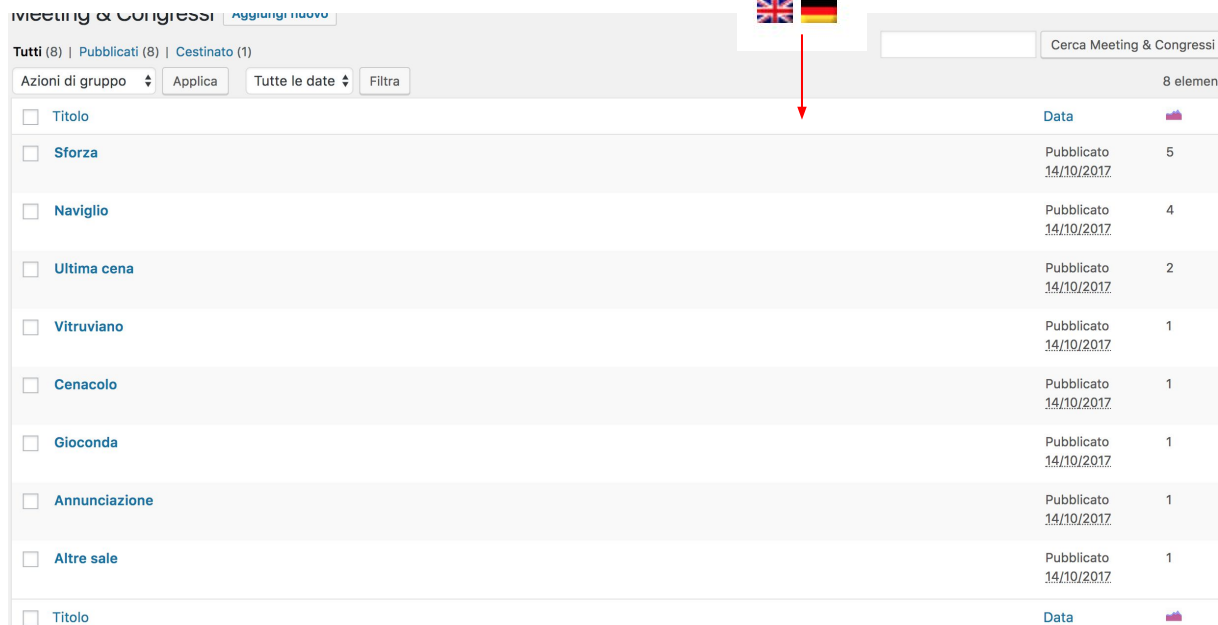

We need to insert the possibility to translate this page; maybe in this page?

meeting & Congressi [Aggiungi nuovo](#)

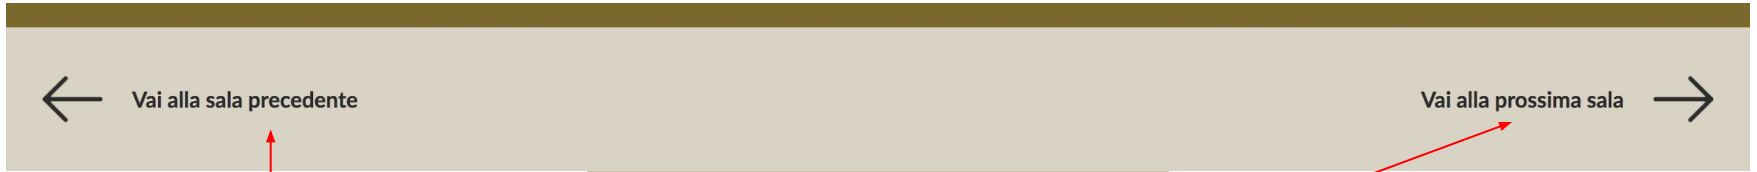

Tutti (8) | Pubblicati (8) | Cestino (1)

Azioni di gruppo Tutte le date 8 elemen

<input type="checkbox"/> Titolo	Data	
<input type="checkbox"/> Sforza	Pubblicato 14/10/2017	5
<input type="checkbox"/> Naviglio	Pubblicato 14/10/2017	4
<input type="checkbox"/> Ultima cena	Pubblicato 14/10/2017	2
<input type="checkbox"/> Vitruviano	Pubblicato 14/10/2017	1
<input type="checkbox"/> Cenacolo	Pubblicato 14/10/2017	1
<input type="checkbox"/> Gioconda	Pubblicato 14/10/2017	1
<input type="checkbox"/> Annunciazione	Pubblicato 14/10/2017	1
<input type="checkbox"/> Altre sale	Pubblicato 14/10/2017	1
<input type="checkbox"/> Titolo	Data	

A screenshot of a web application interface. At the top, there's a header with the text 'meeting & Congressi' and a button 'Aggiungi nuovo'. Below this, there's a navigation bar with 'Tutti (8) | Pubblicati (8) | Cestino (1)'. A search bar contains 'Cerca Meeting & Congressi'. Below the search bar, there are filters: 'Azioni di gruppo' with a dropdown arrow, 'Applica', 'Tutte le date' with a dropdown arrow, and 'Filtra'. On the right, it says '8 elemen'. The main content is a table with columns for 'Titolo', 'Data', and a count. The table lists items like 'Sforza', 'Naviglio', 'Ultima cena', etc. Above the table, there are two flags: the UK flag and the German flag. A red arrow points from the text above to these flags, and another red arrow points from the flags down to the table header.

3) Translation of nav button

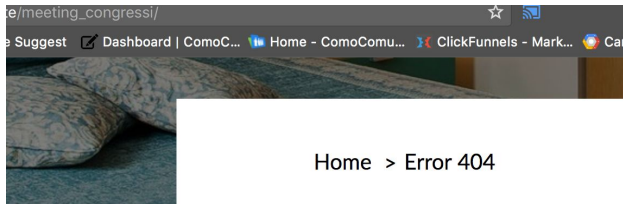

We need to insert the possibility to translate this nav button for the lang

4) Delete link from list item - page camere & Suite - camere & suite child

There is a problem on the breadcrumb; this is the current URL. But, if we click on meeting_congressi, we goes on a 404 page because the page doesn't exists:

/meeting_congressi/annunciazione/

We should fix to have an URL like this:

/meeting-matrimoni/meeting-congressi/annunciazione

So, we have the complete URL Path without 404 page

5) Modify on “Restaurant & Bar” template

We need to modify the link section for template “Restaurant & Bar”, from this:

Link text	<input type="text" value="Scopri il nostro menù"/>
Add link	<input type="text" value="#"/>

To this one (is the same of meeting & Matrimoni template):

Links		Link Text	Add Link	
	1	<input type="text" value="Scopri i menù nozze"/>	<input type="text" value="http://pgygouck.preview.infomaniak.websi"/>	
	2	<input type="text" value="Scopri i menù banchetti"/>	<input type="text" value="http://pgygouck.preview.infomaniak.websi"/>	
	3	<input type="text" value="Scopri i menù battesimi"/>	<input type="text" value="http://pgygouck.preview.infomaniak.websi"/>	
				<input type="button" value="Add Links"/>

So we can have the possibility to add more than one link

6) Modify on Restaurant & Bar template

We want to insert a play button on the CHEF photo, that open a modal Youtube video:

Maybe the backend aspect could be like this:

The working of the play button it will be like this:

<https://landing.ticomprotoneer.it/>

so on the click on the play, the video open in modal and start the video.
