

XChop Changes

High Priority Changes: Need by Friday

Treatments:

On the treatments page: <http://wp2.upupload.com/blog63508/db0v2mtkg63508/treatments/>

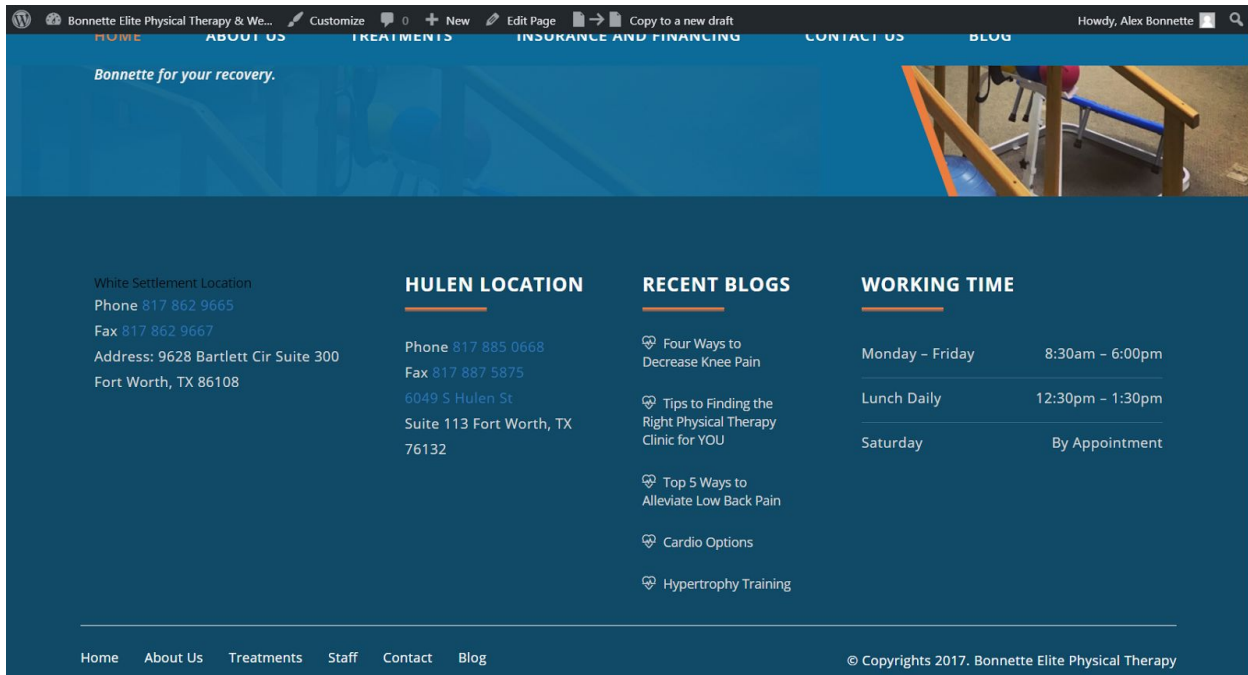

Please make the following changes:

- Make the hover color orange like the rest of the CSS. It's currently green (I couldn't get a screenshot because the hover doesn't work with Awesome Screenshot)
- We don't want to link to the, "treatment details" template - please remove the links to, "treatment details"
- On image hover we would like a short 100 character description to show. Again I can't screenshot because I used awesome screenshot, which won't function with the hover
- Remove the heart icon from the hover and the expand icon.

Lower Priority Changes: Need by Monday/Tuesday

Footer

The, "About Us" header in the footer needs to be, <h3>

Footer

The links in the bottom left corner of the footer should be the same as the main menu links. I can't find where to edit that (see above image).

Subscribe to Newsletter:

- Add a, "Thank you for subscribing" message upon click
 - Where can I edit this including the following:
 - Email address the newsletter emails go to
 - Thank you for subscribing message
-

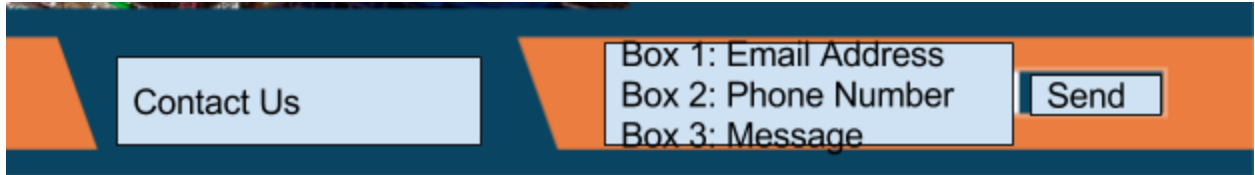

Contact Us Page:

Can you help me make the map width 100% so that it's responsive. I currently have it set in the iframe to be 1000px but I know that won't work in the other viewports.

```
<iframe src="https://www.google.com/maps/d/embed?mid=18HGkJ8zEWfnBMJoaWr6BfH9Aut4" width="1000" height="480"></iframe>
```

On the contact us page: <http://wp2.upupload.com/blog63508/db0v2mtkg63508/contact-us/>

Can we please re-dress the contact us form to look like the “Subscribe Bar”

Homepage:

When on the homepage the menu doesn't show up unless you scroll down:
